Develop as a Worker
Series: General Social Care
This programme will demonstrate the value of worker development to managers and staff within either residential or domiciliary care settings. It encourages workers to evaluate their work and improve o...

Developing a Nursing Portfolio
2010 E 00:16:54
Nurses are one of a few professions many people trust with their lives. However like any other occupation, nursing professionals still need to maintain their skills in their current area of practice a...

Dignity and Respect
2011 E 00:29:21
Dignity and Respect has been included in the Care Certificate Standards: Standard 7, but how can we apply dignity and respect in our everyday work and life? How do we demonstrate it? Designed to be fu...

Effective Communication 1
Series: Care Home Series
2003 E 00:36:10
One of the most crucial elements of the care workers role is their ability to communicate effectively with service users and each other. This course focuses on verbal, nonverbal and behavioural commun...

Effective Communication 2
Series: Care Home Series
2007 E 00:25:06
This course considers the different forms of written communication and how care workers can improve their skills in this area. It also explains clearly, the role and responsibilities of managers and c...

Effective Hand Hygiene
2006 E 00:16:20
For the past 180 years, scientists and physicians have recognised the importance of hand hygiene. Yet research shows that we still ignore many of the basic principles. Most of us focus on completing t...

Eliminating Bullying and Harassment from the Aged Care Environment
2007 E 00:25:03
People working in aged care routinely provide love, care and support for the elderly but often they can be less than caring and supportive of each other. This programme examines the definitions, types...

Emergency First Aid in the Care Home
Series: Care Home Series
2006 E 00:24:51
Every workplace must make provisions for emergency first aid and this video explains the basic procedures involved in the most common emergency first aid situations. All basic first aid procedures are...

Emergency First Aid in the Workplace
Series: Care Home Series
2006 E 00:36:49
Wherever your staff may work there is always the chance that they will need to deal with accidents and emergencies. Knowing how to react to these incidents and perform first aid effectively can mean t...

Enhancing Communication and Counselling Skills in Today's Practice
2005 E 01:33:55
For many people health treatment and hospitalisation are a bewildering time. Jargon and unfamiliar environments and faces all contribute to alienation - a distance that today's professional nurse must...

Equality, Diversity and Inclusion
2011 E 00:37:04
Designed to be fully in line with the Care Certificate Standard 4: Equality and Diversity, this title will provide you with essential information about equality, diversity and inclusion in a social ca...
Ethics and Legal Concepts in Nursing: Consent
To protect patient's interests in health care, principles of informed consent have been developed to ensure a person's right to decide the type of treatments they are prepared to receive. Patients see...

Ethics and Legal Concepts in Nursing: Introduction
Whenever newspapers or other media carry stories about the public's perception of the level of ethics associated with various professions, nursing always rates very highly. Nurses deal with people, and...

Feed Her While She Walks: Person-Centred Care for Residents Who Wander or Want to Leave
When a resident won't sit long enough to eat, or insists on leaving, or wanders into potentially unsafe areas - what do you do? This 20-minute program will help. Using real people and real situations....

Fire Safety
Designed for those providing care within the domiciliary setting, this title explores fire safety within the service users own home. In focusing on fire prevention principles and home carer obligation...

Fire Safety 1: Hazards and Prevention
This programme will teach care workers how to identify potential hazards and prevent the outbreak of fires. Covering areas such as the legal framework surrounding fire and how fires start, this title...

Fire Safety 2: Drills and Evacuation
Ensuring that your workers are fully aware of what must be done in a fire is vital to providing a safe environment for service users. Building on the lessons learned in Fire Safety 1: Hazards and Prev...

Fire Safety 3: Risk Assessment
This programme will help registered owners, managers and their staff understand the process of creating a fire risk assessment for their care home. The resource covers areas such as identifying and re...

Focus On: Abuse
Focus On: Abuse features 10 study scenarios depicting varying levels of care practice for care workers to identify and discuss. Then by working together they must explore best practice and explain why...

Food Hygiene
Designed exclusively for those providing care within the domiciliary setting, this title explores the vital role home carers have in making sure that they prepare food that is safe to eat. It covers t...

Food Safety and Hygiene in the Care Home
Every year in the UK there are over 90,000 confirmed incidents of bacterial food poisoning; therefore, it is imperative that food safety and hygiene procedures are strictly adhered to. This is particu...

Getting Hit, Grabbed, and Threatened: What It Means and What to Do
Hitting, grabbing, yelling, threatening… These reactions often represent an unmet need that a person with dementia can no longer express. Through real-life interactions this sensitising programme look...
Hand, Foot and Nail Care
This programme will explain the ageing changes that occur in the hands and feet, and identify common hand and foot problems, as well as demonstrate measures to keep hands and feet functioning.

He Wouldn't Turn Me Loose: The Sexual Abuse Case of 96-year-old Miss Mary (Long Version)
This programme presents the real-life case of 96-year-old Miss Mary, who was financially exploited and later, sexually assaulted by her grandson. Miss Mary had been living with her grandson and his wi...

He Wouldn't Turn Me Loose: The Sexual Abuse Case of 96-year-old Miss Mary (Short Version)
